## FAQs

Do the packages come with Prints/Photobooks/Albums?

No, The prices of the packages do not have photobooks included. However if you want alternative options check out our Print Options section and make a change and the cost of the package will be altered for you. Unless stated in the package.

Do you do weddings outside the Accra/Tema Metropolis?

Yes we do. For events outside the Accra/Tema metropolis we charge a transportation fee, and if it requires staying the night, the cost of accommodation will fall onto the client. Our transportation fees start from GHS 150 depending on the destination and the number of photographers

When do I talk to/meet the photographer?

First things first. It is important to make your booking. Once the booking process is complete you will be assigned a photographer for your event and at that time you can meet them at our studio to discuss the specifics of the event.

Do you have any other services you provide except for Photography/Videography?

Yes & no. We do offer services in graphics design and web. We do not offer any services aside from Photography and Videography. We can give suggestions for other vendors who can help you though.

How long does it take for me to get my pictures/videos?

On average it takes 6-8 working weeks from the date of your event to receive the images/video on a DVD. The DVD for images is not an image slideshow. For Photobooks it takes another 6-8 working weeks before the photobook is delivered. So in total from start to finish if you have ordered a photobook it takes about 3 months. The delivery periods are subject to our current workload and may vary depending.

What happens when there is a change in prices?

For all clients who have completed the booking process and made the deposit, all agreed prices prevail. For prospective clients who have seen our rates and as yet have not made the deposit or completed the booking process the new rates will apply. All rates for all services provided can be changed at any time.

How many images are in the photobook?

Photobooks are uniquely designed for each event. There is no standard template and the number of pictures in each album is more dependant on the design of the photobook than on the size of the book. We can attempt to give you a rough estimate but these numbers vary widely according to the design of the book. For the Mini 50-100 for the Standard 200-400 for the Pro Plus its between 250 and 450.

How long do you stay for an event?

For the Events & Photo Shoots we work according to the time in the package. If you require additional hours they can be purchased at GHS 200 an hour for all packages and across photos and videos.

## FAQs

All this for just photos/videos? Like seriously?

No, you are not paying for just photos/videos; you are paying for an experience; you're paying for something unique; and ultimately you're paying so we can create a work of art for your wedding. Our weddings come optionally with a photo-book, and that in itself makes your wedding awesomely unique! While our prices might possibly be above some budgets for photography/videography [in Ghana] our services are worth every pesewa invested.

What is a Photobook?

We preserve the visual sentiments of your special day in an album of the finest quality; the Photostory album is a photobook of uniquely chosen photos beautifully arranged to tell your story. To ensure a high print quality and finish, all albums are printed from a reputable print firm and shipped to all locations. This is a work of art that will preserve memories of your day for many years.

What is a Layflat Book?

Layflat books are similar to photobooks but have much thicker pages. The pages are often glazed making them waterproof to a degree but they can take less photos than photobooks.
